RESEARCH PUBLISHING POLICY RMDC

Purpose of the policy: To outline the standards, procedures, and ethical guidelines for disseminating scholarly work.

Scope: Students, faculty RMDC

1. Ethical Guidelines:

- **Authorship criteria:** only that author will be credited who has contributed substantially in conception of idea, methodology, drafting , revising the work and final approval). Just collection of data will not qualify as author. Ghost authors are not allowed.
- **Conflict of Interest:** Researchers must disclose any conflicts that could bias their work.
- **Plagiarism:** No plagiarism, including self-plagiarism (duplicate publishing of one's own work) is allowed.
- **Data fabrication/falsification:** No manipulation of research data is allowed.
- **Peer Review:** Technical review committees and IRB will conduct peer review process to ensure integrity and confidentiality.

2. Open Access vs. Subscription-Based:

- **Open Access:** RMDC encourages research to be published in open-access journals to increase accessibility.

3. Copyright:

- **Copyright Ownership:** Authors must clarify they will retain the copyright or transfer it to the publisher.

4. Funding Acknowledgement:

- Policies often require that sources of research funding are clearly acknowledged in publications.
